COMPANY PROFILE

ONE STOP SOLUTION FOR ALL YOUR CALIBRATION NEEDS

We would like to introduce ourselves as one of the leaders in the field of **CALIBRATION** in all industrial & Medical sectors such as Electro-Technical, Mechanical, Thermal and Biomedical fields. We also provide Sales & Service support for all types of testing instruments. Our well qualified, experienced and dedicated team ensures that necessary quality requirements are met.

Our laboratory is accredited as per standard ISO/IEC 17025:2017 and is equipped with latest facilities with master instruments/gauges traceable to National & International Standards calibrated at C.M.T.I & E.T.D.C., Bangalore and National physical laboratory, New Delhi & Argen Calibration UAE.

We are in this field since 1996, offering services to more than 5000 customers in and around Karnataka. Realizing the wide range of industries & Hospitals in India, we are interested in expansion & our service to other states of India. A list of Test & Measuring instruments that we offer calibration services is enclosed. We also provide calibration services for your instruments on Annual Contract basis at your site, at Reasonable / Competitive price.

## BIOMEDICAL LABORATORY

### CRITICAL CARE EQUIPMENTS

- Ventilator
- Patient Monitor
- Defibrillator
- Ecg
- Syringe Pump
- Infusion Pump
- Electro Surgical Unit
- Anesthesia Machine
- Cpap
- Bipap

### CALIBERATING EQUIPMENTS

- 288+ Electrical Safety Analyzer
- Flow Analyzer System Certifier Fa Plus
- Uni-sil Vital Signs Simulator
- Uni-pulse 400 Defibrillator Analyzer
- Multi-flow Infusion Pump Analyser
- Electro Surgical Analyzer

## VENTILATOR

If you follow a patient from an initial event such as an accident location all the way until he/she is released from hospital, you will notice that mechanical ventilation is necessary and used in many areas of patient care. Already at the accident location and during time of transportation, ventilation is provided using an emergency ventilator. The accreditation was obtained for both in-house & onsite calibration. The laboratory comprises of sophisticated high precision master equipment traceable to national standard. M/S VAIDYANATHESHWARA INSTRUMENTS PVT LTD is an Accredited calibration which provides a wide platform for carrying out calibration of ventilator in biomedical department and we will provide calibration for ventilator by using FLOW ANALYZER SYSTEM, CERTIFIER FA PLUS.

## PATIENT MONITOR

Patient monitor is a device which is used to analyse multi parameters such as saturation peripheral oxygen( $spo_2$ ),NIBP, respiration, ECG, temperature. Those parameters having various principles. M/S. VAIDYANATHESHWARA INSTRUMENTS PVT LTD is an Accreditation Calibration Lab which provides a wide platform for carrying out calibration of patient monitor in biomedical department and we will provide calibration for patient monitor by using UNI-SIM VITAL SIGNS SIMULATOR .

## DEFIBRILLATOR

Defibrillation is a treatment for life threatening cardiac dysrhythmias, specially Ventricular Fibrillation(VF) and non perfusing ventricular tachycardia(VT). NABL accreditation of VAIDYANATHESHWARA INSTRUMENTS PVT LTD can carrying out the accurate calibration by using electrical safety analyzer with an ISO, IEC standards and we will provide calibration for defibrillator by using UNI-PULSE 400 DEFIBRILLATOR ANALYZER.

## ECG MACHINE

- ▶ ECG is a simple noninvasive procedure. Electrodes are placed on the skin of the chest and connected in a specific order to a machine that when turned on, measures electrical activity all over the heart. VAIDYANATHESHWARA INSTRUMENTS PVT LTD is an Accreditation calibration which provides a wide platform for carrying out calibration of ECG in biomedical department and we will provide calibration for ECG by using UNI-SIM LITE VITAL SIGNS SIMULATOR and ECG simulation can calibrated by UNI PULSE400 DEFIBRILLATOR ANALYZER, also can provide safety calibration for all medical equipments which having earth potential by using 288+ ELECTRICAL SAFETY ANALYZER.

## SYRINGE PUMP

- ▶ Syringe pump is a device which is used to provide some medication to the patients. NABL accreditation was obtained for both in-house & onsite calibration. VAIDYANATHESHWARA INSTRUMENTS PVT LTD is an Accreditation calibration which provides a wide platform for carrying out calibration of ECG in biomedical department and we will provide accurate calibration for syringe pump by using MULTI-FLOW INFUSION PUMP ANALYZER.

## INFUSION PUMP

- ▶ An infusion pump is a generic pump that delivers fluids in a medical context usually the nutrients, drugs are controlled through these devices. of VAIDYANATHESHWARA INSTRUMENTS PVT LTD can provide accurate calibration of this instrument which is contained in the biomedical laboratory and we will provide calibration by using INFUSION PUMP ANALYZER

## ESU

- ▶ Electro surgery is the application of a high - frequency alternating polarity, electrical current to biological tissue as a means to cut, coagulate, desiccate, or fulgurant tissue. The laboratory comprises of sophisticated high precision master equipment traceable to national standards. M/S VAIDYANATHESHWARA INSTRUMENTS PVT LTD is an Accreditation calibration which provides a wide platform for carrying out calibration of ESU in biomedical department and we will provide calibration by using ELECTRO SURGICAL ANALYZER.

## ANESTHESIA MACHINE

- ▶ Anesthesia machine is designed to provide accurate and continuous supply of medical gases with accurate concentration of anesthetic vapour and delivers to the patient at a safe pressure and flow.

## CPAP

- ▶ Continuous positive airway pressure (CPAP) therapy is common treatment for obstructive sleep apnea. A CPAP machine used a hoses and mask or nosepiece to deliver constant and steady air pressure.

## BiPAP

- ▶ BiPAP is a Bilevel Positive Airway Pressure, and is very similar in function and design to a CPAP machine. A BiPAP machine is a non-invasive form of therapy for patients suffering from sleep apnea.

M/S VAIDYANATHESHWARA INSTRUMENTS PVT LTD, accredited laboratory can provide accurate calibration of these equipments such as (Anesthesia Machine, CPAP, and BiPAP) and we will provide calibration by using FLOW ANALYZER SYSTEM, CERTIFIER FAPLUS
